Kratek opis

Last generation digital display measuring tool. GYSMETER allows making a quick diagnosis on all types of vehicles by making easy under body measurements (length, symmetry, and cross check). Its very easy operation allows the measuring to be carried out by a single person.

Quick and easy measurement • A unique and patented self centring magnet attachment system • Light weight arm, with easy to read digital display • Allows making free or comparative measures, without disassembling any part of the vehicle, on lengths from 400 to 2650 mm. • Powered by 2 x AA 1,5V batteries (not included) • Can be used on a vehicle in the following situations: LiftStraightening benchFrame rack The GYS TECH software can be downloaded free of charge on the Internet. It allows editing a report attesting of the diagnosis, as proof of traceability for the customer and insurance company.

Tehnične Specifikacije

Proizvajalec GYS DAWELL
